ROYAL BAKING POWDER

ABSOLUTELY PURE.

The quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, and palatable and nutritious food. Bread, biscuits, muffins, cakes, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. R. A. Witt, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is unusually pure, for I have as found it in many cases made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the acids, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
